About CMA

The Certified Management Accountant (CMA) is a globally recognized professional qualification in Management Accounting awarded by the Institute of Management Accountants (IMA). The CMA qualification builds expertise in financial management, strategic decision-making, and performance analysis.

This certification is more than just an academic achievement—it's a powerful credential that validates your ability to drive business performance and make strategic financial decisions that influence the success of organizations worldwide.

Why do CMA?

1 Globally recognized Professional Qualification

Be a part of the global pool of 100,000+ CMAs across 150+ countries

2 Enhances your salary bracket

CMA members typically earn 50-100% more than their Commerce & Accounting Graduate

3 Only 2 exams

Vs Indian CMA that has 20 exams
VS CA that has 16 exams

4 Cost efficient

Qualification related fees paid to IMA (INR 75k - 120k) are much lower than any other global qualification (INR 2.5-5 lakhs)

Who should pursue CMA?

CMA is one of the most attractive careers for the following students

Accounting professionals looking for career advancement

Business Owners seeking an overall understanding of finance & accounts

Qualified /Semi Qualified Chartered Accountants

Candidates interested to move into management roles

Entrepreneurs wanting to learn the money aspects of business

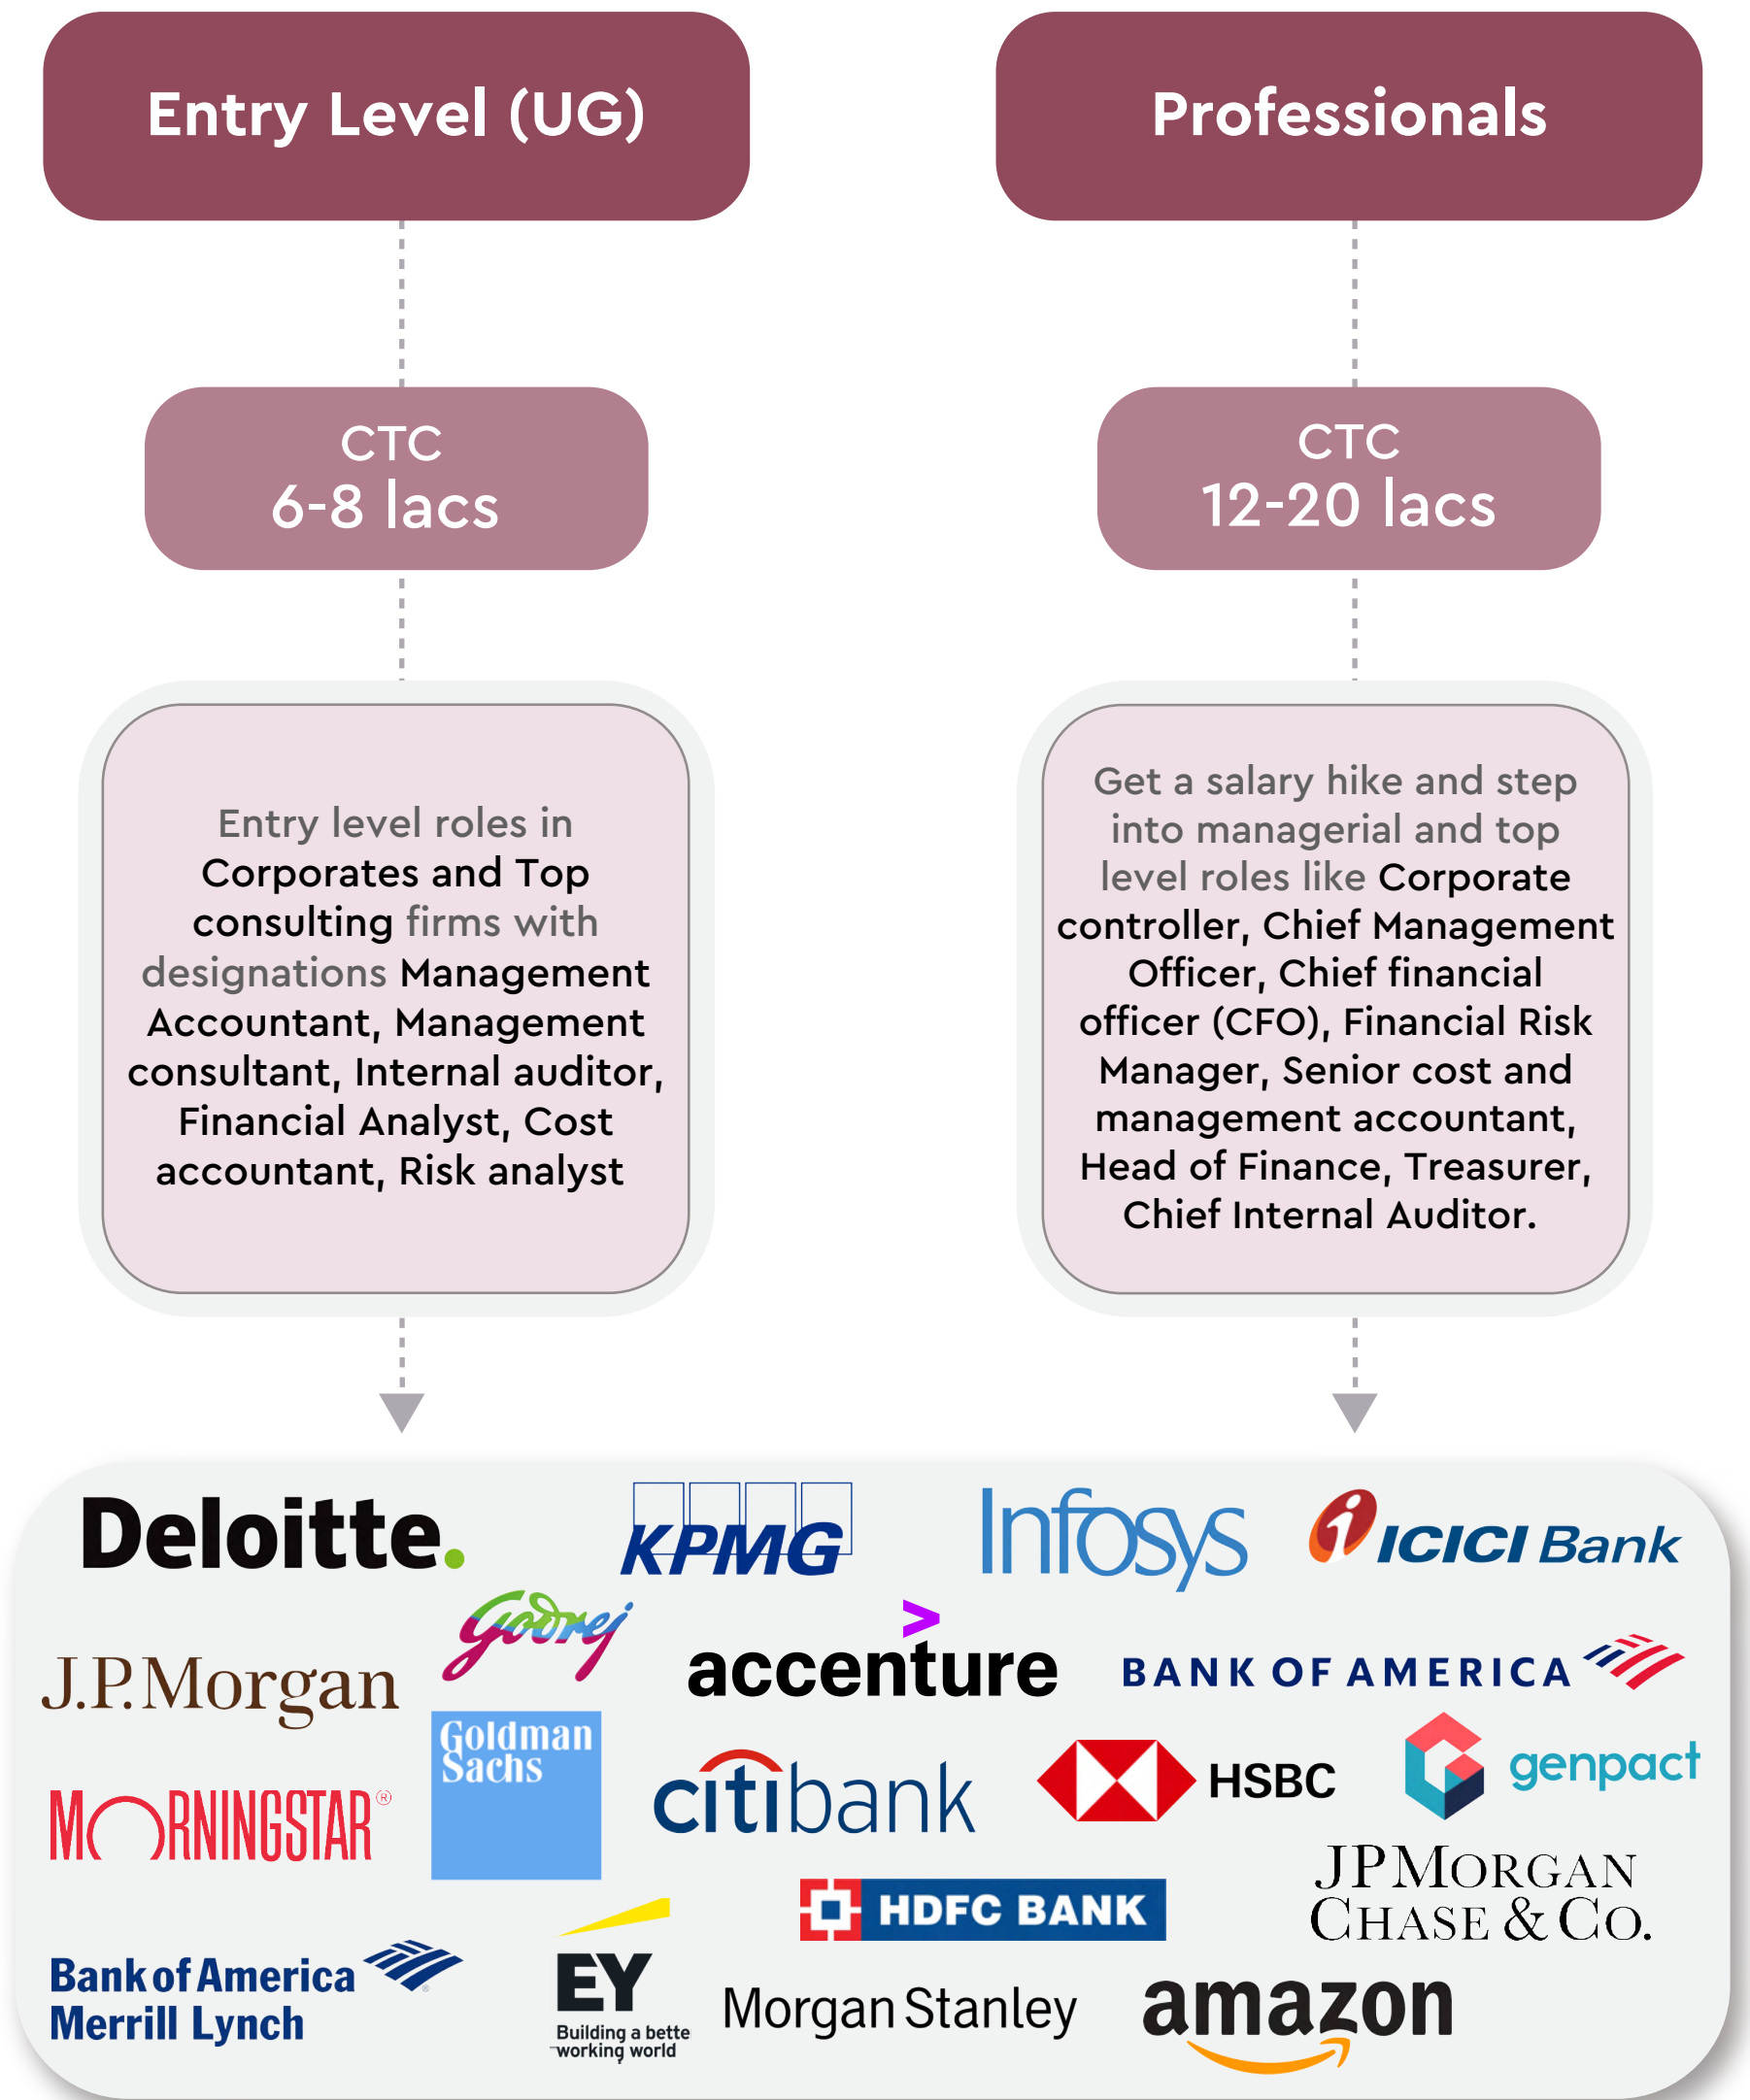

I liked the part where there is a comprehensive study material provided such as recorded lectures & quizzes to help us better prepare for the upcoming live lecture, where I can raise doubts and get them answered.

- Aryan Tupe
