SECURITIES MARKET AND INVESTMENT BANKING OPERATIONS

Securities Markets help household savings be effectively and efficiently channelled into productive investments like shares, debentures, precious metals (ETFs), and real estate (REITs).

Investment Banking Operations are essential in managing private equity funds, public and corporate debt placements, leveraged buyouts, mergers & acquisitions, bond offerings, IPO etc. Investment bankers do a complex, intricate job requiring high-level technical and analytical skills.

This program helps professionals to get deep knowledge of financial markets and use the knowledge to help their clients make informed investment decisions.

STUDENTS TESTIMONIALS

S Karun Dev *Kochi*

The topics that are taught in the class are really good for us in the future. Proschool's Faculties are very good at teaching as well as help solve all the doubts.

Sameer Paygude *Pune*

The faculty engaged with every student, a major plus point of Proschool. They interact with each student individually and offer help at each step.

Arun Shankar R *Chennai*

Trained us effectively in an understandable manner. For non-commerce students, they help develop necessary skills and confidence.

Sanika Patole *Thane*

The journey through IMS Proschool was very admirable. I was new to this and didn't know much, but here I learned Excel, how to make pivot tables, use formulas, etc. Additionally, their offline sessions were more than worth while for me.
